Bring ideas to life in pixels.

At **APRICOT IT LIMITED**, we're looking for a skilled and imaginative **Web Designer** who thrives on creativity, user-focused design, and modern web technologies.

Join a digital-first company where your designs won't just live on screens—they'll shape user experiences and drive results.

Wey Responsibilities:

- Design visually appealing and responsive websites and web applications
- Collaborate with developers and marketing teams to implement and optimize UI/UX
- Create wireframes, prototypes, and design mock-ups
- Ensure consistency with branding and design standards
- Stay current with design trends, usability best practices, and new technologies

Skills & Experience:

- Proven experience as a Web Designer or in a similar role
- Proficiency in design tools such as Adobe XD, Figma, Sketch, Photoshop, and Illustrator
- Strong understanding of HTML, CSS, and basic JavaScript
- A portfolio showcasing responsive web design and user-centric layouts
- Strong attention to detail and communication skills

What We Offer:

- Competitive salary and benefits
- Creative, collaborative, and innovative work culture
- Flexible work options

- Opportunities to work on diverse and exciting digital projects
- Career progression and skills development
